CONVENIENT & AGILE. THOUGHTFUL DESIGN.

Designed for versatility, convenience and durability, this Laptop Tables provide portable workspaces for collaborative or individual concentration needs. Pair it with Lounge chairs, ottomans, and sofas, or actively perch and change positions with other seating to create a comfortable and energizing environment. With a slim, steel profile base, this table can slide under or sit next to most seating — or discretely rest adjacent to seating allowing any space to become a workspace. The three neutral Thermofoil options for the worksurface complement any office environment.

Features

- 3/4" thick top is available in three Thermofoil finish options unique to this laptop tables – Cloud, Glacier White and Shark Grey
- Thermofoil is standard providing scratch and mark resistance durability
- Lightweight and easy for users to carry or move
- 2" x 2" steel leg offers strength and durability
- Leg/base can be specified 10+ standard paint finishes
- Slim steel base profile to fit easily beneath or next to seating options
- Standard with pencil groove and tech cradle to prop cell phones or tablet
- Back cut out for routing cable to floor for charging capabilities
- Standard with bag hook under worksurface
- And optional USB Power E-dock 110 or 120 add-on accessory that can route through leg is available
- Pairs easily with Lounge Chairs and Sofas to create individual or collaborative work environments
